

**NW4 opened the meeting thanking the students of  
University of Belgrade for welcoming us <3**

Additionally, we informed attendees on the main findings of NW4's Tuesday morning seminar. The network wants to explicitly thank Olja for her efforts in making this workshop happen and keeping us connected with local activists.

As some participants were attending ECER for the first time, we gave a quick intro into what networks are.

**Updates we shared:**

- 1) Developments of submissions over the years (can be found on the website)
- 2) Activities of the network:
  - a. Joint Special Call by Networks 04, 06, and 16  
"Inclusion, Digital Media, and Education"
  - b. Onboarding of Jude and Mega
  - c. Joint workshop with local activists during ECER:  
Academic Activism - Pushing Back Against Hegemony

We appreciate our collaboration partners and their time to prepare this workshop and everyone who attended it!

- d. We finally managed to have a social event during ECER <3

This is usually quite complicated given the size of our network.

- 3) Possibilities to engage:
  - a. Social media
  - b. Newsletter
- 4) Convenor group:

The convenor group will remain in the same constellation as given:  
Michelle Proyer, Olja Jovanovic, Jonathan Rix, Jude Tah and Mega Wanti.

As of ECER 2026 a new convenor (as of 2027) will start shadowing the group.

- 5) Many of the attendees agreed to (continue to) support the network reviewing and chairing: **Thank you!**
- 6) Update on the **European Journal of Inclusive Education (EJIE)**:  
The journal is doing well and we will be in touch regarding updates!

Feedback and ideas for future activities by attendees:

- 1- Positive feedback on the scheduling and location
- 2- Run discussion workshops / research bootcamps as other networks do

**Got any further ideas / feedback? Feel free and get in touch!**
