“Rethinking Critical Ethnography: Interconnections between doing ethnography and transformation in educational contexts”

Network report

8th International Conference on Educational Ethnography

27.-29.6. 2024, Zurich University of Teacher Education (Switzerland)

“Re-Writing (against) Culture. Ethnographic writing in educational ethnography: practices, approaches, innovations, and positionings»

Plenary discussion 1

- 20' discussion (10' groups, 10' plenary)
- Questions:
 - What do you value in the ethnography network?
 - What are the most inspiring and insightful moments that you had in the ethnography network and at other networks/conferences?

Building the network together

We want the ethnography network to be:

- a place that opens possibilities for thinking differently about people's lives, actions, and experiences
- challenging common-sense conceptions of educational processes, policies, and outcomes
- a platform for ethnographic debates and a meeting point for various styles of attending to "what is going on"
- a safe space that suspends local power regimes – to recollect how and why we are doing educational ethnography – for those who metaphorically (or literally) wish to dance their data

Building the network together

What being active in the network can mean:

- Seeing your ethnography in an international context
- Learning about different cultures of doing ethnography
- Getting feedback from outside your bubble
- Sharing resources, exploring funding opportunities
- Making your research seen on a European scale

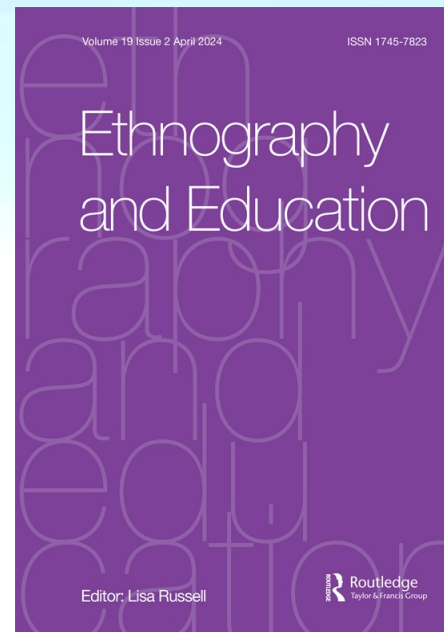

→ **We want you to think about the ethnography network as your platform and space:** Organise symposia, workshops, summer schools, zoom sessions, ...

Building the network together

- What would you like to see/make happen in the ethnography network (e.g. in terms of activities and formats)?
 - What should we do more of (together)?
- Talk about these two questions with the person next to you. While you talk, please write down your ideas:
- <https://aarhusuni.padlet.org/clemens/buildingnw19>

Outlook

Publishing in our journal: Ethnography and Education

Outlook

**12th Rethinking Ethnography Conference, Bangor
University of Wales (Lori Beckett & Graham French)**

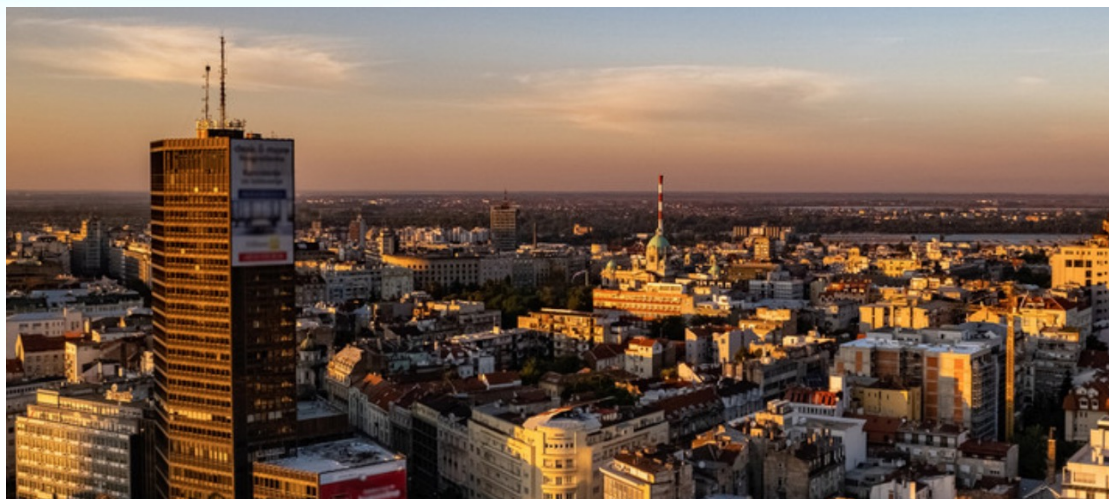

2026

Outlook

ECER 2025, Belgrade

Charting the Way Forward: Education, Research, Potentials and Perspectives

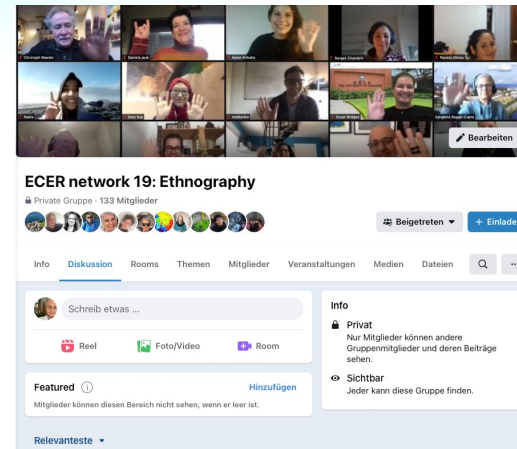

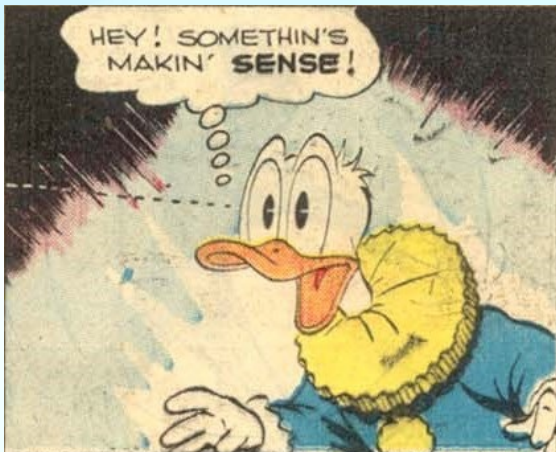

8.-12.9.2025

Ways to stay in touch

Stay updated through the ethnography mailing list:
nw19-subscribe@lists.eera-ecer.de

Use our facebook group:
