

Network Meeting

Pro> sessions nicely put together, special call symposias, coherence, quality

Con>

- chair and presenter should be separated (the joint role is too demanding)
- lack of overview of other network activities, network isolation

Suggestions> post docs (fund for two summerschools or a longer summerschool)

- news letter, baby sitting,friday afternoon
- meeting with locals(school, academics, place to collectively visit)
- "scolastic disputation" -numerous contributors, discussants (panel, roundtable,workshops, artistic way of presentation)
- Topics to elaborate:dataification,europeanization, future, participatory research, context
- expand the circle of reviewers, co/convenors

Ideas for special call 2024

How uncertainty becomes certainty?

- What is the nature of the synchronity, asynchronity, overlaps of the two spheres?
- paradoxies of temporality in the light of uncertainty (future is not existing as it is not achievable nor present as it is already past under uncertain conditions)> spatial/temporal trajectories (Massey)
- How past (paradoxies, memories) or future (utopias, imaginaries) shape our attitude towards certainties and uncertainties?
- Do we talk about discrepancies, contingencies or associations,assemblidges,lines when we talk about uncertainties?
- Education as an institution of social change or social reproduction in certain/uncertain context
- Systems of representations, subjectivities to be developed
- How uncertainties shapes meaningful engagement, learning trajectories?
- Dewey/critical hope
