ABOUT U.P. STUDENT RESIDENCES

UP has 3 student residences buildings where students will be accommodated. For booking it will be adopted the regular UP criteria for student distribution (e.g. gender, number of nights, other students already accommodated).

For ECER 2014, UP will distribute the students and will send a code that identifies the room and the residence. All accommodations are individual rooms, organized in apartments/flats with 11 rooms and 2 bathrooms (which one can be used by 4 persons at the same time). Each flat is occupied by only females or male students, but each residence has flats for both genders. Each residence has several kitchens and study rooms. Twenty-four-hour security service is also provided and UP is responsible for providing and washing bed linen and towels.
